

# Fundraising Timeline

GOAL: \$           \$3,000          

**6 months out:** \$400.00 due (deposit)

**5 months out:** \$800.00 due

**4 months out:** \$800.00 due

**3 months out:** \$800.00 due

**FULLY FUNDRAISED!!!!**

# THINGS TO KEEP IN MIND:

- Trip cost is \$3,000. This does not include your Yellow Fever vaccine (about \$200) and your Visa (about \$110). Those costs will be paid for out of your own pocket. Doesn't mean you still cant fundraise for them though!
- The deposit must be paid to ensure your spot on the trip!
- We WILL book flights at 3 months out, when you are expected to be fully fundraised!
- It is important to stay on track on the Fundraising Timeline, or the cost of your individual trip could go up! The longer we wait to book flights, the more expensive they get!
- There is grace. We want to work with you every step of the way...all that requires is *communication*! If you are struggling to stay on top of your funds, please let us know because *we want to help you!*
